> Mr. Blythe has taken into consideration the probabilities as to nominations by each party as well as the probabilities as to the election, for at this stage of the campaign, so to speak, the two are inseparable. It is Mr. Blythe's oft-repeated opinion that President Taft may be renominated for the asking: the nomination is his if he wants it, and he wants it now, and is apt to want it next year.

Presuming Taft is to be the Republican nominee, Blythe concludes that in order to win the Independent vote, the vote that will decide the election, the strongest candidate the Demosuch murderers, should be put to crats can nominate is Woodrow Wilson. He does not discount the difficulty of nominating Wilson, on the other hand, he points out very clearly the difficulties and shows how the Democratic leaders in certain States are playing their cards to prevent his nomination.

He names Murphy in New York Hearst in Illinois and California, Taggart in Indiana, as some of the Democrats who are opposing Wilson. THE RANGE WITH A REPUTATION MADE IN ALL SIZES AND STYLES.

Set of Ware

If you call at our store during our Majestic Demonstration Week and allow us to show you the many advantages and superior qualities of the Great Majestic Range, and will purchase one at the regular price, we will giee you Free the beautiful and useful Souvenir Set of Were illustrated in this advertisement. This ware is made to match the quality of the majes ic Ranges, and we know all ladies will see the beauty and utility of this set, especially the first three pieces, which are entirely new and cannot be had alone by purchase, except at a very high price. The prices of Majestic Ranges are the same, but we give the set FREE with each Majestic Range bought during the demonstration week only.

Reasons Why The Great Majestic You Should Buy.

1st. It has the reputation of being the best range money can buy. 2nd. It not only has the reputation but IS the best range made, and we will prove this to you if you will let us.

3rd. 't is construc ed of malleable iron, material you can't beat, and of Charcoal iron, material that resists rust 300 per cent greater than steel, is rivited together air tight. No heat escapes or cold air enters the range, thus uses very little fuel to do perfect work.

4th. The reservoir alone is worth the price of range over any other reservoir made. It boils 15 gallons of water; is heated like a tea kettle, with pocket against left hard lining, and is movable and sets on frame, hence cannot wear out. When water gets too hot it can be moved away from fire.

Majestic ranges use less tuel; heat more water--- and heat it hotter; cost practically nothing for repairs; last three times as long; bakes better; easier to keep clean and gives better satisfaction than any other range on the mardet. If you know positively that the above statements are true, wouldn't you buy a majestic at once?

Come in Demonstration Week and We'll Prove It to You.
